Legacy the School of Sport Sciences is committed to the education of the children in our community. We feel parent involvement is an essential piece in ensuring that our students are successful in school. We believe that when parents are more involved in the academic process, school becomes more of a priority for their children. Legacy’s vision is to educate and inspire gifted and talented students through their interest in careers in athletics while maintaining a focus on academic, social, and personal growth. It is our mission to produce a community of leaders. It is our pledge to maintain a good line of communication from school to home and it is our goal to provide ample opportunities for parental involvement throughout each school year.

Legacy the School of Sport Sciences agrees to implement the following requirements as outlined by ESSA Section 1116:

Legacy the School of Sport Sciences will hold an annual meeting, at a convenient time, to which all parents of participating children shall be invited and encouraged to attend. The school will explain the requirements of Title I and the right of the parents to be involved. At least 2 meetings will be offered at the beginning of each school year, at flexible times to maximize the opportunity for parent participation. Transportation, childcare, or home visits, as such services relate to parental involvement, may be provided with funds provided under Title I.</p>
